OUT OF DOORS FOR WOMEN.

VOLUME III. OCTOBER, 1895. NUMBER 23.

ANNOUNCEMENT.

OUT OF DOORS FOR WOMEN is issued monthly at Orcutt, California, by the Orcutt Publishing House. Price 5c. a copy; 25c. a year.

THIS issue is not a fair sample of our magazine as it usually appears. Circumstances render it impossible to devote the necessary time to the magazine for a few months, but this bulletin will be issued instead of our usual 16 page illustrated edition.

THIS is a special library bulletin, and with succeeding issues will catalogue the more important literature which we have received. Where prices are mentioned we either have duplicates for sale or exchange or can supply librarians promptly. At all times our subscribers can command our services in securing any literature specially wanted.

INDEX KEWENSIS.

THIS is a grand work, compiled and published at the expense of the late Charles Robert Darwin, being an enumeration of the genera and species of flowering plants from the time of Linnæus to 1885, giving the authors' names, the works in which they were first published, their native countries, and their synonyms. The price, now fixed at £8, will be raised as soon as the fourth volume is issued, which is expected shortly from the press.
